MEDICAL

"Better Hygiene for a safer World"

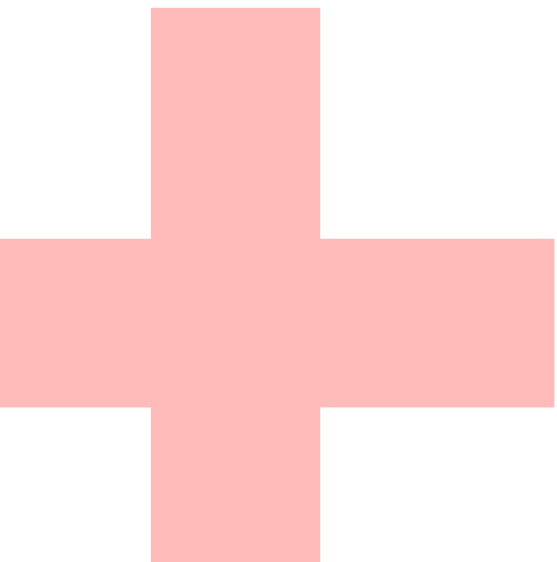

What is

Beppetex+ ?
MEDICAL

As a result of Covid-19 and new government requirements, Beppetex has launched a new anti-bacterial fabric line called **MEDICAL**.

These These fabrics undergo **BEPPEX SHIELD** finishing, consisting of a formula combining anti-bacterial treatments with water-repellence.

The formula uses:

- 77% WR: perfluorinated compounds with the following characteristics

PFOS	< 1 $\mu\text{g}/\text{m}^2$
PFOA	< 25 $\mu\text{g}/\text{kg}$ (ppb)

- 23% anti-bacterial solution: Silane derived tetraalkylammonium compound

This application reduce the viral load by at least 99%.

Ideal for sanitation use: masks, scrubs

N.B BEPPETEX SHIELD finix is available for all the fabrics of the collection
